

random\_data\_generation.hh

```
graph BT; main_cpp[main.cpp] --> random_data_generation_hh[random_data_generation.hh]
```

The diagram illustrates a file dependency. A box labeled 'main.cpp' at the bottom has a blue arrow pointing upwards to a box labeled 'random\_data\_generation.hh' at the top. The 'random\_data\_generation.hh' box has a light gray background, while the 'main.cpp' box has a white background. Both boxes have a black border.

main.cpp
